

Thompson Eregha

Software Engineer
Lagos, Nigeria

[2347064836051](tel:2347064836051) , thompsoneregha00@gmail.com , linkedin.com/in/thompsoneregha , github.com/Godbrand0

Adaptable Software Engineer with nearly 2 years of experience designing and implementing innovative frontend solutions in Social media, and e-commerce. Specializing in crafting user-friendly applications, I excel in enhancing the overall user experience through collaborative problem-solving.

Experience

OCTOBER 2024 – OCTOBER 2024

Energy Talent AI, Abuja, Nigeria – *Frontend Developer (Contract)*

Tools – Reactjs, Tailwind CSS

- Implemented an infinite marquee of and team images in the hero section, creating a dynamic, continuously scrolling effect to capture user attention and convey a strong brand presence, showcasing talent diversity, contributing to an inviting and professional first impression on the landing page.
- Implemented breakpoints and flexible grid layouts using Tailwind CSS, ensuring a consistent user experience that enhances accessibility and engagement across a diverse range of devices.

AUGUST 2024 – PRESENT

NeTuArk, West Bangal, India – *Co-founder, Frontend engineer*

Tools – Javascript, Firebase, Tailwind CSS

- Contributed to the Chat Room feature by optimizing functionality and addressing bugs, significantly speeding up student conversations and improving real-time engagement.
- Utilized Firebase Firestore to store chat data, including messages and user profiles, enabling dynamic data updates and seamless user interactions.
- Worked on the Feeds platform, managing replies to posts, fixing issues, and optimizing performance. Enhanced user experience by accelerating how students connect with new people through posts.

JULY 2024 – SEPTEMBER 2024

Grand Coast Hotels, Ondo, Nigeria – *Frontend Developer (Contract)*

Tools – javascript , CSS

- Contributed to Grand Coast’s latest website launch, boosting online visibility and engagement by 25% through SEO optimization and performance improvements.
- Optimized mobile responsiveness to provide seamless access for users on mobile and tablet devices, ensuring usability at any time.
- Focused on a streamlined user experience by implementing intuitive navigation, easy-to-read product details, and efficient page loading.

Projects & Volunteer Experience

FEBRUARY 2024 –MARCH 2024

Grocify food web Application – *Software Developer*

Tools - Javascript, TailwindCSS, Firebase.

- Integrated Firebase Authentication for secure user sign-in, log-out, and user verification, providing a streamlined and secure login experience.
- Leveraged Tailwind CSS to create a visually appealing, responsive design that adapts seamlessly across devices.

OCTOBER 2023 – JANUARY 2024

Crypto & Expenses Dashboard – *Software Developer*

Tools – javascript, CSS, SASS,HTML

- Developed a comprehensive financial dashboard that displays user accounts, income, investments, and recent transactions with data visualization.
- Integrated interactive graphs to track expenses over time for categories like training, internet, and utilities, providing visual insights into spending trends.
